Authorization for this examiner's amendment was given in a telephone interview with Mitchell Shapiro (RN 31,568) on September 27, 2006.

The application has been amended as follows:

- As to claim 10, line 11, the phrase "can cancel" has been replaced with --cancels--
- As to claim 12, lines 2-3, the phrase "is adapted to cancel" has been replaced with --cancels--
- As to claim 20, lines 2-3, the phrase "is adapted to cancel" has been replaced with --cancels--

Allowable Subject Matter

Claims 7-26 are allowed in view of the prior art.

The following is an examiner's statement of reasons for allowance:

As to claim 7, the prior art of record, taken alone or in combination, fails to disclose or render obvious a spectroscopic apparatus comprising a second support member disposed between a wavelength dispersion element and first member that

includes a rotation member for rotating said wavelength dispersion element, in combination with the rest of the limitations of claim 7.

As to claim 8, the prior art of record, taken alone or in combination, fails to disclose or render obvious a spectroscopic apparatus comprising a combination of a transmission member disposed between a first and second support member wherein said second support member includes a deformation member that elastically deforms in response to a difference between a contraction/expansion amount of the first support member transmitted from the transmission member and a rotation member that rotates minutely in response to the deformation of the deformation member, in combination with the rest of the limitations of claim 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
